

NJLN Nomination Committee (Elected Position)

The nominations committee is responsible for soliciting individuals who may be interested in serving in an elected position capacity. This individual would help prepare a slate of eligible candidates reflecting the diverse membership of the NJLN, present an annual report to the Board on the annual nominations, and be advisory to the Board on all matters relating to Board development. This is also an elected position, so appointments only occur once a year.

Name	Credentials / Employer	Term (1 year)
