

NJLN Program Committee

This committee defines and delivers educational programs by assessing and identifying the areas and topics of importance for our diverse membership base. Responsibilities include developing and executing focused programs through the appropriate delivery channel. Expansion of our current traditional in person programs such as our Practical Nurse Education Program, Pre-Convention Educators Program to explore and include online offerings, virtual events, partnering with content providers and more. This is a great opportunity to be creative, communicate with other members for market sensing on the types of educational programs and events that they want, and how they would like the content delivered. This Committee also oversees the Convention Committee. Volunteer Time Required: Ongoing throughout the year, very active, available for regular meetings and/or video conference calls.
